

Paula Wheeler worked with us as part of our financial systems implementation team. She initially delivered Microsoft Office training to our finance staff.

Once the Microsoft training was complete Paula was asked to write, develop and deliver training on Agresso 5.5.2 including core financials, purchasing and Agresso reporting.

Paula received fantastic feedback from the attendees of her training courses and we were delighted with her contribution to the project.

Paula left us with a well-trained user base, a set of user guides and gave advice on training course set up, administration and delivery.

It was a delight to work with Paula as her approach to her work cannot be faulted and her legacy at the University is much appreciated.

Marc Albano  
Deputy Director of Finance
